TO Whom it May concern,

Citizen Services

I am writing to report various crimes being committed by Good Samaritan Ministries, in Port St Louis, FL (8280 Business Park Dr.) 34852
(www.good-samaritan-ministries.org)

Crimes I have seen and know of as follows:

- NO one on staff is licensed to give out prescription medication, including the mental health court clients medications (they are mandated here by the courts)

- People here who receive SSI/SSDI, money from mental health courts, people who receive financial support from family, anyone who receives money, Anyone who is retired receiving pensions and SS income, All this money is co-mingled into 1 account (see item 5 in rules enclosed). There is no "account" just a quick book ledger w/ a client's name on it. The money that should be on hand is not even at Seacoast Bank in Good Samaritan's Bank account. They spend it all! Even if withdrawing everyone's money from their account (drawing their accounts) was legal - it shouldn't be, how can not having that money on hand or in a separate account

or ~~don't~~ one escrow account with every Penny accounted for be legal? Its Grand theft.

- Good Samaritan ministries has been fundraising and operating as a 5013c non profit for years - even after losing that status years ago. Although they are trying to regain that status, as of mid April they still had 2 years back taxes and 2016 to file yet they continue to pay health care and fund raise as a non profit. Currently we are at Slice of Heaven, Bella Home, Chevron on PSL Blvd. for money to fund Kids summer activities - last year we did this - maybe 2023 activities rest of summer here at church. The thousands raised - spent it. I know Congress came down on TV Evangelist for this crap.

- we have a Food Pantry that is infested with roaches, in addition to giving out food 1x a week we give people a "pet" too.

- The Kitchen not on original plans (remodel) NO RUNNING HOT WATER - against all health food safety regulations. This is also so infested w/ Roaches its disgusting! no wonder so many people get sick here.

Currently Ryan Cauley dispenses medication for the men. Patrick Pintel does it in Ryan's absence. Jason Puyue used to do it, up until he stole a clients suboxin and got high. Mike Brock no longer ~~here~~ ^{here} at Good Samaritan, used to dispense medication for the men. Ivy Dorowa, Sara Schaffer and Denise Morales dispense for the women.

-Consistently they give other peoples medication to others not the person prescribed. A young man who was in my horse, the one I manage for the Ministry had Eligus, when they discovered blood clots after an extended hospital stay. The Dr's put Daquarius Davis on Xeralto. I turned in the Eligus to Charlene Bitetto, ^{as required} Ivy asked me at one point what I did w/ Daquarius's Eligus. I told her I turned it in to Charlene (Pastor's wife). Another male client Fritz Facon was given Eligus from that bottle while they waited to get a script for him. Pill was given by Ryan Cauley. He told Fritz they had the medicine 'on hand' until his pills come in.

-Currently the Ministry is mixing mental health clients into houses where people who are 'normal' or in Rehab. Due to the unstable behavior of some of these people, this is causing an

unsafe environment, for people to live in.
Indian River and St. Lucie County has requested
that these mental health court clients be housed
in the same house.

- The men's program director Patrick Pental
has P.O.A. over his father. Has abused this power
by using his Dad's credit to buy a house and live on

- The Ministry frequently deny people going
to the emergency room, when they are sick, injured
or not feeling well or are short of breath.

This has caused many uninsured people to
have bronchitis, upper respiratory infections
turn to pneumonia, causing unnecessary hospital
stays, unpaid hospital bills. Even those w/ heart problems

- They do not permit anyone in the 'program'
to drop off/pick up their own prescriptions.
Many times the Ministry has waited days before
they pick up medicine medically necessary.

Some are a life or death situations. 1 example
Rurdy Brazee was denied insulin for 1-2
weeks. A 19 year old who was hospitalized
(on medical) for 3 weeks, on a ventilator had
to wait over 12 hours for his asthma medication
after spending 9 days on ventilator for
respiratory failure, caused by asthma!

- The ministry continues to discriminate who gets medication and who doesn't if uninsured or insured. Some prescribed meds are denied by ministry.

- The ministry has gotten Dr. Lewis a cardiologist to prescribe medication to me and most likely others medication without being seen, by him. The Dr's son Steven is in the rehab and mentally ill / mental health court client.

- There are several diabetics in the ministry the test strips for testing ones blood sugar we have been out for 2 weeks - Daquarius the 19 year old previously mention recently was diagnosed as a diabetic his blood sugar was 493. I care for Daquarius, have not been able to check his sugar. This could lead to diabetic ketoacidosis a life threatening disease.

- They suppress people to work on the ministry work crews lawns, trees, construction. Either they work or they are threaten to be kicked out. No pay - being told they are volunteers so they do not have to be paid. There are injuries that occur on these jobs - that these workers have to pay for. Most uninsured. Some are told their work is to pay for their rent. Check their "accounts/books"

The ministry vehicles wow where do I begin

The Dodge Ram cargo van, the brake lights do not work. They have known about this safety violations, mechanical issues for over a year. When a driver objects to driving this vehicle "Drive it or Pack up and get out," they are told.

- The ~~Isuzu~~ Suzuki Dump Truck - Used by the ministry's tree company Trinity Tree Service has way too many violations to even mention. The Biggest NO lights, bad tires and ^{NO} mirrors.

- The Good Samaritan Ford van: Seats that are not fasten or latched down - they transport women and children from the houses to the ministry 2-3x a day. Bad Tires also.

- The white ¹² passenger van. Reverse lights out, cracked windshield, window missing tires at times bad.

< The above vehicles all have cracked windshields, and most do not have seat belts that work.

> The Bus (former Tampe General Hospital Bus) NO first aid kits, NO fire extinguishers, other than the other 3 Bus seats. None of the black chairs in the ~~Buses~~ are fasten down, mounted and none have seat belts.

- The Dakota and Ranger pickup trucks at night and in the mornings transport 4-6 people in back of the pickup.

- The church has no first aid supplies.
- Since we can not hold or carry cash, credit or debit cards, we can not buy our own toilet paper, the ministry as stated in the rules, furnishes the houses including toilet paper. At times we go days w/o toilet paper at the houses and the church.
- The houses are overcrowded, the house I manage has 13 men in it, most have 12-14, including kids. all or most of the people are unrelated. I wonder if they really do have the necessary permits. After last years city council meeting with the Council members and the mayor opposed to the permits for unrelated people living in same house - I wonder if they do.
- Most houses do not have smoke detectors, some that do not work. 1 house does not have any. no fire extinguishers. I have 3 smoke detectors in the house I manage - ^{not working} Have asked for new batteries since March, for all the houses not just mine. None given.

The house in white City, or ^{Borrachough} ~~Borrachough~~ the water smells like rotten eggs, the water pressure is weak. Landlord seems unworking.

to fix the problem. The ministry
just makes excuses and 10-11 men plus
a 5 year old are forced to bathe in that
water. And cook with and drink.

my name is Michael Frishbaugh, my contact
info is 772-203-1466 / 754-900-7057.

I live @ 5660 NW consumer Ave, PSL 34983
From 7³⁰ AM - 9³⁰ / 10 PM M, T, Th, F I am @ the
Ministry. W 7³⁰ - 7, Sat 8³ - 6 Sunday 9³ - 2³ also
at the ministry Sat from 6 - 9³ we are at Sandhill
Crane Park w/s after we leave the ministry
we return to the house.

Also many people are on probation
including myself - my officer is Officer Lund.

most men are not permitted to
work regular / Real jobs to earn money
must work the ministry crew for no money.
The ministry per Sara Schaffer in the
main office no longer will make monthly
payments for our probation. Some men
like Tai Yoshida the ministry did not
make a payment for over 6 months. Now
they have informed the men last month that
after a conversation with the Supervisor of
Probation that if we get a IRS letter of
non filing - they will waive our probation
fees yet the 2 officers who have done
home visits officer Jordan officer ~~Borden~~
Seelinger know nothing about this. My guess is
that it will get the monthly probation fee waived
but court order payments / Resitution it will not.
Men who have curfews for 10pm are told 'Probation
Knows you are in a program / you're @ church
so its OK' when without that officer's
permission you cannot be out past curfew
period. From time to time they move
men to different houses - When can probation
if they do not reach their officer, &
Patrick Pinal tells people to move.

anyway. "we have a good relationship w/probation" it won't be a problem."

When you object - your belongings have already been moved and you are told to or its implied the house you are moving to is where you stay/live go & go or you can "kick rocks" (leave).

Recently when a probation officer came for a home visit, she went to the house on Bonita to check on William Chapman, who the night before had been ordered to move to Consumer.

When the officer ~~who~~ she arrived at Consumer (house to manage) she was upset. Told myself and Mr Chapman that probation needs to be called before they move. "It's ridiculous". Most of these people have no where else to go so they feel like they have to break the law and rules in order to have a place to stay - fearful.

These tears are keeping me up at night - have to come forward. Pls keep my name confidential as long as possible. Pls don't close the place down 130+ people will be homeless - punish who is @ fault,
